The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 7 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Uglow et al in view of Yew et al.

The rejection is maintained as stated in the paper mailed 7/3/03 and as follows. Element 102 of Uglow et al is disclosed to be a "wire" as are metal interconnect elements 122a and 124a (claims). Also 102 is above the surface of the substrate that it is located on.

One of ordinary skill in the art would have been led to the recited doping profile of the interlevel dielectric through routine experimentation within the teachings of Uglow et al to achieve desired etch characteristics of the film relative to the barrier layer.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
